Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Extracted from CLD file by NRI. This data has always been taken from a sample of clients but efforts continue to increase the sample size used, resulting in larger numbers reported for most categories above.

URS Table Number	General Notes
14A	The increases in total number of male consumers with SMI/SED and total number of Multi-racial consumers with SMI/SED since 2013 are due to coding errors in FY13 data for 0-12 and 13-17 groups led to significant undercounts for FY13. This has been corrected for FY14 data.
20A & 20B	2013 reporting included intra-facility transfers on the same day as 'readmissions'. For 2014 reporting, such intra-facility transfers are excluded from the counts of readmissions.
