* Reported under Hispanic ethnicity.

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Our new system no longer allows people to enter "Unknown" as a valid housing status, so we expect to see the other housing categories to see large increases.

Montana

URS Table Number	General Notes
5A	A new waiver program has moved a large number of people within the year from a state funding program into a Medicaid program. This has resulted in an increase in the total number of consumers with both Medicaid and non-Medicaid funding from 2013.
6	The State Hospital only serves adults, but due to the way the age is calculated, they show up on this report as being 17. Given the extremely small population, the length of service for children will vary greatly from year to year.
