

Nevada 2014 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	7,296,842	10.88	22.78	59
Community Utilization per 1,000 population	7,148,971	9.94	22.33	58
State Hospital Utilization per 1,000 population	144,695	1.01	0.45	53
Other Psychiatric Inpatient Utilization per 1,000 population	349,528	-	1.32	39

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	617,174	27.2%	39.0%	57
Employed (percent with Employment Data)**	617,174	15.5%	17.9%	57

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	76.0%	71.3%	51

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	74.3%	67.3%	48

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	8,203	3.9%	8.2%	51
State Hospital Readmissions: 180 Days	18,762	6.7%	18.8%	53
State Hospital Readmissions: 30 Days: Adults	7,648	3.4%	8.4%	50
State Hospital Readmissions: 180 Days: Adults	17,385	6.0%	19.1%	52
State Hospital Readmissions: 30 Days: Children	498	66.7%	6.3%	17
State Hospital Readmissions: 180 Days: Children	1,286	87.5%	16.3%	22

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,292,455	80.5%	78.8%	58
Homeless/Shelter	176,675	11.9%	3.2%	55
Jail/Correctional Facility	86,078	0.2%	1.6%	54

Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	81,422	8.4%	2.9%	36
Supported Employment	61,511	-	2.0%	41
Assertive Community Treatment	61,445	1.5%	2.0%	38
Family Psychoeducation	23,228	-	1.4%	16
Dual Diagnosis Treatment	205,709	6.9%	10.9%	25
Illness Self Management	242,621	-	15.8%	20
Medications Management	369,008	4.5%	24.5%	19

Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	8,859	-	1.1%	24
Multisystemic Therapy	17,988	-	2.6%	16
Functional Family Therapy	20,996	-	3.7%	13

Change in Social Connectedness	State	U.S. Rate	States
Adult Improved Social Connectedness	73.3%	72.8%	51
Child/Family Improved Social Connectedness	92.1%	83.9%	46

*Denominator is the sum of consumers employed and unemployed.

**Denominator is the sum of consumers employed, unemployed, and not in labor force.

URS Table Number	General Notes
4	The decreases in total number of consumers Employed, Unemployed and Not in Labor Force are due to changes made in data collection could have some influence on these with practitioners not completing the related fields.
5A	The increase in Medicaid Funding and decreases in total number of consumers with Non-Medicaid Funding only and total number of consumers with both Medicaid and Non-Medicaid Funding can be explained: with the recent passage of the Affordable Care Act we have seen an increase of clients with Medicaid Funding. In turn, we have seen a decrease in clients with Non-Medicaid funding accounting for the drops in the two counts including non-Medicaid references.
6	The increase in total Admissions to State Hospital During the Year and total Admissions to Community Program During the Year are due to changes in personal coverage (ACA and other providers) have allowed those in need to access services at a greater rate.
11	Number of Surveys were Attempted (sent out or calls initiated) for adult survey is unknown. Sample Size and Response Rate for child survey is unknown also.
14A	NAC 433.040 "Adult with a serious mental illness" and "child with a serious emotional disturbance" defined for counting purposes. (NRS 433.324) Each division facility shall use the following definitions to count the number of persons in this state who are adults with a serious mental illness or children with a serious emotional disturbance: 1. "Adult with a serious mental illness" means a person who is at least 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than an addictive disorder, mental retardation, irreversible dementia or a disorder caused by an abuse of alcohol or drugs, which interferes with or limits one or more major life activities of the adult. 2. "Child with a serious emotional disturbance" means a person who is less than 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than a mental disorder designated as a Code V disorder in the Manual, a developmental disorder or a disorder caused by an abuse of alcohol or drugs, which substantially interferes with or limits the child from developing social, behavioral, cognitive, communicative or adaptive skills or his activities relating to family, school or community. The term does not include a child with a disorder which is temporary or is an expected response to stressful events. (Added to NAC by Common on Men. Health & Men. Retardation, eff. 8-24-88; A 11-19-90; R128-97, 11-14-97)
14A	NRS 433B.045 "Child with an emotional disturbance" defined: "Child with an emotional disturbance" means a child whose progressive development of personality is interfered with or arrested by mental disorder so that he shows impairment in the capacity expected of him for his age and endowment for: 1. A reasonably accurate perception of the world around him; 2. Control of his impulses; 3. Satisfying and satisfactory relationships with others; 4. Learning; or 5. Any combination of these factors. (Added to NRS by 1993, 2708)— (Substituted in revision for NRS 433B.080)
14A	402.36 Severe Emotional Disturbance (SED): 1. Persons from birth through 48 months who currently or at any time during the past year (continuous 12-month period) have a: a). DC:0-3 Axis I diagnostic category in place of a DSM Axis I diagnostic category; or b). DC:0-3 Axis II PIR-GAS score of 40 or less (the label for a PIR-GAS score of 40 is "Disturbed"); or 2. Persons from 4 to age 18 who currently or at any time during the past year (continuous 12-month period) have a: a). Diagnosable mental or behavioral disorder or diagnostic criteria that meets the coding and definition criteria specified in the DSM (excluding substance abuse or addictive disorders, irreversible dementias, mental retardation, developmental disorders, and V codes, unless they co-occur with a serious mental disorder that meets DSM criteria); and have a: b). Functional impairment which substantially interferes with or limits the child from achieving or maintaining one or more developmentally appropriate social, behavioral, cognitive, communicative or adaptive skill. Functional impairments of episodic, recurrent, and persistent features are included, however may vary in term of severity and disabling effects unless they are temporary and an expected response to stressful events in the environment. Children who would have met functional impairment criteria during the referenced year without the benefit of treatment or other support services are included in this definition.3. SED determinations are made by a Qualified Mental Health Professional (QMHP) within the scope of their practice under state law and expertise.
20A/B	In the past inpatient programs had been underutilized. For 2014 reporting, many of our clients come from an outpatient unit that now makes the move from this outpatient program to an inpatient program through a filing of a client being a danger to self or others, which is seen as a forensic submission. This has led to an increase in forensic status readmissions and a decrease in non-forensic status readmissions to state psychiatric hospitals within 30 and 180 days of discharge.
