

2017 State Profile — United States and Other Jurisdictions National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

The 2017 N-MHSS included 11,582 mental health treatment facilities. The survey response rate was 87.1 percent overall.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	7,390	63.8
Private for-profit	2,054	17.7
Public agency or department		
State mental health agency	427	3.7
Other state government agency	437	3.8
Regional/district authority	846	7.3
Tribal government	14	0.1
Indian Health Service	8	0.1
Department of Veterans Affairs	402	3.5
Other	4	*
Total	11,582	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%

2017 State Profile — Arizona National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Arizona, 372 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Arizona was 88.8 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	251	67.5
Private for-profit	107	28.8
Public agency or department		
State mental health agency	1	0.3
Other state government agency	2	0.5
Regional/district authority	4	1.1
Tribal government	1	0.3
Indian Health Service	1	0.3
Department of Veterans Affairs	5	1.3
Other	—	—
Total	372	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%
24-hour hospital inpatient	36	9.7
24-hour residential	99	26.6
Partial hospitalization/day treatment	25	6.7
Outpatient	265	71.2
Total	372	

¹ The number of facilities sums to more than the total, and percentages sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting.

Facility type, by number and percent

	Facilities	
	No.	%
Psychiatric hospital	21	5.6
General hospital	11	3.0
RTC for children	24	6.5
RTC for adults	65	17.5
Other type of residential treatment facility	2	0.5
Veterans Administration medical center	4	1.1
Community mental health center	28	7.5
Partial hospitalization/day treatment facility	4	1.1
Outpatient mental health facility	204	54.8
Multi-setting mental health facility	9	2.4
Other	—	—
Total	372	100.0

Treatment approaches, by number and percent

	No.	%
Individual psychotherapy	326	87.6
Couples/family therapy	264	71.0
Group therapy	329	88.4
Cognitive behavioral therapy	313	84.1
Dialectical behavior therapy	166	44.6

2017 State Profile — Colorado

National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Colorado, 185 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Colorado was 91.2 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	165	89.2
Private for-profit	9	4.9
Public agency or department		
State mental health agency	—	—
Other state government agency	2	1.1
Regional/district authority	1	0.5
Tribal government	—	—
Indian Health Service	—	—
Department of Veterans Affairs	8	4.3
Other	—	—
Total	185	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%
24-hour hospital inpatient	18	9.7
24-hour residential	47	25.4
Partial hospitalization/day treatment	24	13.0
Outpatient	147	79.5
Total	185	

¹ The number of facilities sums to more than the total, and percentages sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting.

Facility type, by number and percent

	Facilities	
	No.	%
Psychiatric hospital	6	3.2
General hospital	10	5.4
RTC for children	21	11.4
RTC for adults	18	9.7
Other type of residential treatment facility	2	1.1
Veterans Administration medical center	8	4.3
Community mental health center	87	47.0
Partial hospitalization/day treatment facility	2	1.1
Outpatient mental health facility	27	14.6
Multi-setting mental health facility	4	2.2
Other	—	—
Total	185	100.0

Treatment approaches, by number and percent

	No.	%
Individual psychotherapy	176	95.1

2017 State Profile — District of Columbia National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In the District of Columbia, 37 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in the District of Columbia was 77.1 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	24	64.9
Private for-profit	10	27.0
Public agency or department		
State mental health agency	1	2.7
Other state government agency	1	2.7
Regional/district authority	1	2.7
Tribal government	—	—
Indian Health Service	—	—
Department of Veterans Affairs	—	—
Other	—	—
Total	37	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%
24-hour hospital inpatient	5	13.5
24-hour residential	2	5.4
Partial hospitalization/day treatment	4	10.8
Outpatient	30	81.1
Total	37	

¹ The number of facilities sums to more than the total, and percentages sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting.

Facility type, by number and percent

	Facilities	
	No.	%
Psychiatric hospital	2	5.4

2017 State Profile — Hawaii

National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Hawaii, 35 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Hawaii was 77.8 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	10	28.6
Private for-profit	3	8.6
Public agency or department		
State mental health agency	3	8.6
Other state government agency	16	45.7
Regional/district authority	—	—
Tribal government	—	—
Indian Health Service	—	—
Department of Veterans Affairs	3	8.6
Other	—	—
Total	35	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%
24-hour hospital inpatient	8	22.9
24-hour residential	4	11.4
Partial hospitalization/day treatment	4	11.4
Outpatient	27	77.1
Total	35	

¹ The number of facilities sums to more than the total, and percentages sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting.

Facility type, by number and percent

	Facilities	
	No.	%
Psychiatric hospital	2	5.7
General hospital	6	17.1
RTC for children	1	2.9
RTC for adults	—	—

2017 State Profile — Louisiana National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Louisiana, 176 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Louisiana was 82 percent.

2017 State Profile — Massachusetts National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Massachusetts, 315 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Massachusetts was 84.4 percent.

2017 State Profile — Mississippi National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Mississippi, 173 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Mississippi was 83.2 percent.

2017 State Profile — Nebraska National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Nebraska, 133 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Nebraska was 88.1 percent.

2017 State Profile — New Jersey National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In New Jersey, 306 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in New Jersey was 87.8 percent.

2017 State Profile — North Carolina National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In North Carolina, 257 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in North Carolina was 71.3 percent.

2017 State Profile — Oklahoma National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Oklahoma, 143 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Oklahoma was 88.3 percent.

2017 State Profile — Puerto Rico National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Puerto Rico, 59 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Puerto Rico was 61 percent.

2017 State Profile — South Dakota National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In South Dakota, 51 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in South Dakota was 92.7 percent.

2017 State Profile — Utah

National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Utah, 138 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Utah was 94 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	49	35.5

2017 State Profile — Washington National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Washington, 317 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Washington was 87.7 percent.

Facility operation, by number and percent

2017 State Profile — Wyoming National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

In Wyoming, 42 mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate in Wyoming was 85.7 percent.

Facility operation, by number and percent

	Facilities	
	No.	%
Private non-profit	33	78.6
Private for-profit	—	—
Public agency or department		
State mental health agency	—	—
Other state government agency	1	2.4
Regional/district authority	6	14.3
Tribal government	1	2.4
Indian Health Service	—	—
Department of Veterans Affairs	1	2.4
Other	—	—
Total	42	100.0

Service setting, by number and percent

	Facilities ¹	
	No.	%
24-hour hospital inpatient	5	11.9
24-hour residential	7	16.7
Partial hospitalization/day treatment	7	16.7
Outpatient	37	88.1
Total	42	

¹ The number of facilities sums to more than the total, and percentages sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting.

Facility type, by number and percent

	Facilities	
	No.	%
Psychiatric hospital	1	2.4
General hospital	4	9.5

2017 State Profile — U.S. Territories and Other Jurisdictions National Mental Health Services Survey (N-MHSS)

The National Mental Health Services Survey (N-MHSS) is an annual survey of facilities providing mental health treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-MHSS collects data on the location, characteristics, services offered, and number of clients in treatment at mental health treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-MHSS report: <https://www.samhsa.gov/data/all-reports>

The U.S. territories and other jurisdictions presented in this profile consist of data from American Samoa, Guam, and the U.S. Virgin Islands. This profile does not include data for the District of Columbia and Puerto Rico. In these U.S. territories and other jurisdictions, six mental health treatment facilities were included in the 2017 N-MHSS. The survey response rate of these U.S. territories and other jurisdictions, combined, was 53.8 percent.
