National Directory of Alcoholism Treatment Programs

U.S. Department of Health and Human Services
Public Health Service
Alcohol, Drug Abuse, and Mental Health Administration
National Institute on Alcohol Abuse and Alcoholism
5600 Fishers Lane
Rockville, Maryland 20857
This National Directory of Alcoholism Treatment Programs is intended to serve as a resource for those who seek treatment and referral information for alcoholism and alcohol-related problems. It is based on the National Drug and Alcohol Treatment Utilization Survey (NDATUS) of September, 1980, and updates the previous edition which covered both alcoholism and drug abuse treatment programs on the basis of the 1979 survey.

More than 6,300 alcohol services facilities responded to the 1980 survey, providing the information contained in this volume.

The treatment utilization survey is jointly sponsored by the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse in cooperation with State agencies. It responds to similar data requirements of the States and many Federal agencies, including the Food and Drug Administration, National Center for Health Statistics and the Veterans Administration.

The high degree of cooperation among the Institutes, the States and local programs which made this Directory possible is appreciated. We hope this volume will prove useful.

John R. DeLuca, Director
National Institute on Alcohol Abuse and Alcoholism

INTRODUCTION

The National Directory of Alcoholism Treatment Programs includes Federal, State, local, and privately funded agencies responsible for the provision of alcoholism services throughout the United States and its territories. Treatment units represent both alcoholism and drug treatment in combination as well as units serving alcoholism clients only.

Each treatment unit provided the information shown in the directory. Reflecting the primary focus of the NDATUS survey, most of the units are treatment oriented. However, States were provided the option of including non-treatment units, if desired, such as Administrative, Education, Prevention, etc. Therefore, although the listing of treatment service units is substantially complete, the inclusion of non-treatment units varies by State. For purposes of this directory, the selection criteria specified that to be considered as a treatment unit, the unit must have reported a treatment capacity to NDATUS. Each unit is identified according to its orientation as (1) Alcoholism treatment, (2) Alcoholism/Drug treatment, (3) Alcoholism service, or (4) Alcoholism/Drug service unit.

This directory consists of three sections: (1) State Alcoholism Authorities; (2) Alcoholism Programs for each State; and (3) Veterans Administration Medical Centers. All sections are organized alphabetically by State. Within each State, the entries are alphabetized by city and by program name within each city. Each entry consists of the unit name, address, telephone number, and orientation.

Treatment units which did not participate in the 1980 NDATUS, should complete the form on the last page of this directory and mail it to the address shown. Those units will be included in the next survey.
