Dear Colleague:

In September 1982 your unit voluntarily participated in the National Drug and Alcoholism Treatment Utilization Survey (NDATUS). The survey produced valuable information on drug and alcohol abuse facilities for use by Federal and State management in resource assessment, policymaking, research and epidemiology. Another by-product of this effort is the National Directory of Drug and Alcohol Abuse Treatment and Prevention Programs which is enclosed in appreciation of your assistance in this survey.

We hope you will find this Directory useful and we thank you for your participation in the 1982 NDATUS.

Sincerely,

Patricia G. Reed
NIAAA Project Leader

George A. Kanuck
NIDA Project Leader

Enclosure
The National Institute on Alcohol Abuse and Alcoholism (NIAAA) and the National Institute on Drug Abuse (NIDA) are pleased to present the 1982 edition of the National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs. The Institutes have jointly conducted the National Drug and Alcoholism Treatment Utilization Survey (NDATUS), in cooperation with the State agencies, since 1979. The inclusion of approximately 7,500 alcoholism and drug abuse service units in this directory is indicative of the success of the survey. We are grateful to all those who participated in the survey this year.

This document should provide an important resource for those seeking referral to treatment, prevention and other services in alcoholism and drug abuse programs. We hope that the publication of this joint directory will stimulate further communication and cooperation within the alcoholism and drug abuse treatment community.

William Mayer, M.D.
Acting Director, NIAAA

William Pollin, M.D.
Director, NIDA

**VETERANS ADMINISTRATION MEDICAL CENTERS** .......................... 295
INTRODUCTION

The National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs is a compilation of approximately 7,500 Federal, State, local and privately funded agencies responsible for the administration or provision of alcoholism or drug abuse services throughout the United States and its territories. The information included in this directory was extracted from the 1982 National Drug and Alcoholism Treatment Utilization Survey (NDATUS). Through this survey, conducted by the National Institute on Drug Abuse (NIDA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA), in conjunction with the States, information was collected on services available, treatment capacity, utilization, funding and staffing. The information was collected as of September 30, 1982.

The directory has been prepared to serve as a resource for program managers, treatment personnel, and others interested in the location of alcoholism and drug abuse units. Reflecting the primary focus of the NDATUS survey, most of the units in the directory are treatment units. For purposes of this directory, the selection criteria specified that to be considered a treatment unit, the NDATUS form must have indicated either clients in treatment or a treatment capacity. States were given the opportunity to include other than treatment units if they desired. Thus, while the listing of treatment units is quite comprehensive, the completeness of the listing of nontreatment units varies by State.

This publication consists of three sections: 1) State authorities, 2) Drug Abuse and Alcoholism Programs, and 3) VA Medical Centers. All sections are organized alphabetically by State name. In States where there are separate alcoholism and drug abuse authorities, the alcoholism authority is listed first. Within each State, the entries are alphabetized by city and then by program name within city. Each entry consists of the unit's name, address, telephone number and focus. The possible entries for focus include: treatment, prevention, or service unit for either alcoholism, drug abuse or both.

A limited number of these directories are available from the Clearinghouses of the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse.

If you represent a treatment, prevention or service unit that did not participate in the 1982 NDATUS, and wish to be included in future surveys and directories, complete the information on the last page of this directory, and mail it to the address shown.
