1991 Survey
National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs
All material appearing in this publication is in the public domain and may be reproduced or copied without permission from the Institute. Citation of the source is appreciated.
FOREWORD

The National Institute on Alcohol Abuse and Alcoholism (NIAAA) and the National Institute on Drug Abuse (NIDA) are pleased to present the 1991 National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs. The Directory is based on data obtained from the National Drug and Alcoholism Treatment Unit Survey (NDATUS), a national survey that is designed to measure the location, scope, and characteristics of drug abuse and alcoholism treatment and prevention facilities, services, and activities throughout the 50 States, the District of Columbia, Guam, Puerto Rico, the Trust Territories, and the Virgin Islands. The 11,277 alcoholism and drug abuse treatment and prevention facilities that voluntarily participated in the September 1991 NDATUS are listed in this Directory.

This publication is designed to provide an important resource for those seeking referral information about treatment, prevention, and other services in alcoholism and drug abuse facilities. It is hoped that the publication of this Directory will stimulate further communication and cooperation within the alcoholism and drug abuse treatment and prevention communities.

The NIAAA and NIDA are very grateful to all those who participated in the 1991 survey.

INTRODUCTION

The National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs is a compilation of approximately 11,277 Federal, State, local, and private facilities responsible for the provision of alcoholism and drug abuse treatment and prevention services throughout the 50 States, the District of Columbia, Guam, Puerto Rico, the Trust Territories, and the Virgin Islands. The information included in this Directory was extracted from the 1991 National Drug and Alcoholism Treatment Unit Survey (NDATUS). Conducted jointly by the National Institute on Alcohol Abuse and Alcoholism (NIAAA) and the National Institute on Drug Abuse (NIDA), this survey collected information on available alcoholism and drug abuse services and clients in treatment on the point prevalence date of September 30, 1991.

The Directory has been prepared to serve as a resource for program managers, treatment personnel, researchers, the NIDA Hotline, and others interested in the location of alcoholism and drug abuse facilities. The Directory includes treatment, prevention, and other non-treatment service facilities. The NDATUS is the only survey that includes private as well as publicly funded programs. Data collected from all treatment units include unit identification, type and scope of services provided, client capacity and utilization; selected client characteristics (including age, gender, and race/ethnic group), sources of funding, and staffing. Prevention type facilities complete a partial survey, which includes data on unit identification and types and scope of services provided. Administrative level reporting was allowed in the 1991 NDATUS at the discretion of each State. For example, if a program administered several clinics/units, data could be reported at the aggregate program or administrative level rather than the individual clinic/unit level. Entries in this Directory will be based on the reporting level chosen by each State.

This publication consists of listings of the State authorities, State prevention contacts, and the alcoholism and drug abuse facilities. Also included are programs administered by the Department of Veterans Affairs, the Indian Health Service, the Federal Prison System, and the Department of Defense. Within each State, all facilities, including the Federal programs, are alphabetized by city and facility name within that city. Each facility listing consists of the facility name, address, telephone number, and types of services provided. The types of services are designated by coded entries on the last line of each facility's description. These codes are defined in a key that is printed at the bottom of the first page for each State.

Single copies of this Directory are available in limited numbers from the National Clearinghouse for Alcohol and Drug Abuse Information (NCADI), 6000 Executive Boulevard, Post Office Box 2345, Rockville, Maryland 20852. Additional copies may be acquired through the Superintendent of Documents, U.S. Government Printing Office, North Capitol Street, Washington, DC 20402.

Treatment, prevention, or other service facilities not listed in this Directory can be included in future surveys and directories by completing the information on the last page of this Directory and returning it to the indicated address.
KEY

A line of code is shown for each unit listed in the Directory. This enables users to determine at a glance, the Orientation, Function, Type of Care, and Selected Special Program information at each unit. The coding key is reproduced at the bottom of the first page for each State, as follows:

**KEY**

Orientation:

AL = Alcoholism Services only  
DA = Drug Abuse Services only  
AD = Alcoholism and Drug Abuse Services

Type of Care:

DT = Detoxification (24-hour care)  
RR = Residential (24-hour care)  
AM = Ambulatory (less than 24-hour care)

Selected Special Programs:

W = Woman  
AI = American Indian/Alaskan Natives  
HV = HIV Positives  
Y = Youth  
PG = Pregnant Users  
EA = EAP Program Services  
A = AIDS Patients  
P = Public Inebriates  
DW = DWI/ASAP Services  
B = Blacks  
CU = Cocaine Users  
H = Hispanics  
IV = IV Drug Users

Unit Function:

TX = Treatment Unit  
CI = Central Intake Unit  
PV = Prevention Unit  
MM = Methadone Unit  
OT = Other Unit

Note: The absence of a number in the coding line indicates that the unit checked "Other" or "Not Applicable," which were options on the form, but are not included on the key, except for the Other under Unit Function. Units that provide only prevention or other services were not requested to report Environment or Type of Care.
