INTRODUCTION

The *National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs* is a listing of Federal, State, local, and private providers of alcoholism and drug abuse treatment and prevention services. Only providers recognized by their State substance abuse agency are listed in the Directory. Information in this Directory was obtained from the 1995 Uniform Facility Data Set (UFDS) survey conducted by the Office of Applied Studies (OAS), Substance Abuse and Mental Health Services Administration (SAMHSA). Provider information is as of October 2, 1995, the point prevalence date of the survey.

The Directory serves as a resource for program managers, treatment personnel, researchers, and others wanting to know the location and selected characteristics of substance abuse service providers. We have included listings for each treatment location that responded to the UFDS survey. However, some providers respond at the administrative or program level. When this occurs, the only provider that appears in the Directory is the program-level reporter.

In addition to alcoholism and drug abuse treatment and prevention service providers, the Directory contains listings of State authorities and State prevention contacts. Programs administered by the Department of Veterans Affairs, the Indian Health Service, the Bureau of Prisons, and the Department of Defense are also included. Within each State, all providers, including the Federal programs, are alphabetized by city and facility name within that city. Each facility listing consists of the facility name, address, telephone number, hotline number (if applicable), and codes for types of services provided, specialized programs, and third party payments. These codes are defined in a key that is printed on page v.

To obtain copies of other UFDS products, as well as other Office of Applied Studies publications, complete and mail the form located at the back of this Directory. Treatment, prevention, or other service providers not listed in this Directory can be included in future surveys by completing the "Substance Abuse Facility Registration/Change Request" at the back of this Directory and returning it to the indicated address.

SUBSTANCE ABUSE SURVEY PUBLICATIONS

National Household Survey on Drug Abuse (NHSDA)
The NHSDA is the primary source of information on the incidence and prevalence of substance abuse among the U.S. civilian noninstitutionalized population 12 years of age and older. This survey has been conducted every 1 to 3 years since 1971. Reports based on the NHSDA data include:

- Population Estimates Reports
- Main Findings Reports
- Advance Reports

Drug Abuse Warning Network (DAWN)
DAWN is an ongoing data system begun in the early 1970s that collects information on the health consequences of drug abuse as seen in hospital emergency room episodes and medical examiner cases. Reports published using DAWN data include:

- Annual Emergency Department Data (formerly titled as Emergency Room Data)
- Annual Medical Examiner Data
- Advance Reports

Uniform Facility Data Set (UFDS)
[formerly known as the National Drug and Alcoholism Treatment Unit Survey (NDATUS)]
UFDS provides data on drug abuse and alcoholism treatment and prevention facilities nationwide. This survey began in the early 1970s and is conducted every 1 to 3 years. Reports based on UFDS include:

- National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs
- Main Findings Reports

SAMHSA Statistics Sourcebook
Provides an objective presentation of the latest available data from a variety of data sources to address issues of substance abuse, mental illness, and co-occurring mental disorders.
