

## 2017 State Profile — South Dakota

### National Survey of Substance Abuse Treatment Services (N-SSATS)

The National Survey of Substance Abuse Treatment Services (N-SSATS) is an annual survey of facilities providing substance abuse treatment. It is conducted by the Substance Abuse and Mental Health Services Administration (SAMHSA). The N-SSATS collects data on the location, characteristics, services offered, and number of clients in treatment at alcohol and drug abuse treatment facilities (public and private) throughout the 50 states, the District of Columbia, U.S. territories, and other jurisdictions.

More information on the methodology used is available in the 2017 N-SSATS report:

<https://www.samhsa.gov/data/all-reports>

In South Dakota, 58 substance abuse treatment facilities were included in the 2017 N-SSATS, which reported a total of 2,941 clients in substance abuse treatment on March 31, 2017. The survey response rate in South Dakota was 90.6 percent.
